V2

i was up so high

where eagles fly

I just never looked down

oh, but you where down there

with the wind in your hair

and your feet on the ground

we might have had the stars in the sky

you never had the courage to try

BRIDGE

```
F#m
love in flames
   B
is it the same
  E                 A               E
```

```
as passion burning in the name of love
             F#m
or is it the fear of pain
 A                                   B
when love comes crashing down from above
```

V3

```
tonight I lay me down to sleep
on your side of the bed
I pray so hard for somebody to keep
keep you out of my head
but it's no use the sheets take your form
into the dawn the ashes still warm
```

Chorus

```
love in flames
```
