Fm7 Bb7sus
You got some cutting up to do
To bring out the kid in you
To bring out the kid in you
you gotta turn the music up too
To bring out the kid in you
To bring out the kid in you

Left your home and family
To find out who you could be
I find out if the dream was real
Listen to the music
Show you how to use it
The dream is really how you feel

Just take a look At all that time you took worrying about what is or isn't true

## CHORUS (TWICE)

You, you got to believe
To bring out the kid in you
(got to believe)
You, you got to believe
To bring out the kid in you
(believe in you)
You got to believe (you got to believe)

You got to believe (you got to believe) You got to believe (you got to believe) You got to believe (you got to believe)
