

C
Well, I don't need a reason that
Am
I find your love so pleasin'
G C
I know you can carry me back home
C
Been out in the wilderness
Am
I could use a little tenderness
G C
Baby I know you can carry me back home

Am G
And I give good as I get
Am G
This is a night you will never forget
C
So I'm not tellin', I'm askin' you
Am
Abandon all known points of view
G C
Honey let me carry you back home

C
I've been sailin' a ship of fools
Am
Past steel-eyed buildings, glass swimming pools
G C
Baby you can carry me back home
C
They all said the earth was flat
Am
But I think I can live with that
G C
Baby you can carry me back home

Am G
Trust, that's a word that we know
Am G
But how much does it take to let go
C
I would give my life for you
Am
Do anything to pull you through
G C
Honey let me carry you back home

And your love lingers on in my mind
Well after the fact of any moment sublime

So I'm not tellin', I'm askin' you
Abandon all old points of view
And honey let me carry you back home

So I'm not tellin', I'm askin' you

Abandon all known points of view
Honey, let me carry you back home
